Amtrol invented the first indirect-fired water heater, using the existing energy in a boiler system to minimize fuel use and maximize hot water output. More efficient than conventional gas or electric water heaters, BoilerMate indirects provide more hot water, use less energy and require no venting or additional utility connections.

BoilerMate® | Amtrol

Extrol expansion tanks accept expanded fluid in closed-loop hydronic systems to control pressure buildup, improve comfort and help reduce energy costs. Nearly seven decades after inventing the first diaphragm expansion tank, Amtrol's lineup now includes specialty models engineered for modern, high-efficiency systems.
