The paper initiates from two assumptions: the first one is that globalization is an inevitable phenomenon, characterizing our development era, a phenomenon that the human society is forced to understand, because for the first time, it questions the surviving and evolution of the human society.

Globalization: Definition, Processes and Concepts

Globalization, the word means to make "global", meaning making global ties or making something or usage of something accessible and not restricted to a single territory. The process is leaving a significant impact on the international community and on its environment, politics, society and economic development.

Basic concept of Globalization with definition and advantage

Professor Theodore Levitt, a marketing professor at the Harvard Business School, apparently first employed it in a 1983 article in the Harvard Business Review. It is arguable, however, that the basic concept dates to the first humans. Defined broadly, globalization is the process of integrating nations and peoples—politically, economically, and culturally—into a larger community.

Definition and conceptualization - Globalization

Globalization is an interconnected web of social, economic, political, cultural, and technological processes. However, this definition is extremely broad, and the number of connotations and views on globalization is nearly endless. Globalization can also be thought of as a flow of people, capital, goods, and ideas.

Definitions of Globalization | Globalization

The Concept It is the world economy which we think of as being globalized. We mean that the whole of the world is increasingly behaving as though it were a part of a single market, with interdependent production, consuming similar goods, and responding to the same impulses.

themes of the book. The second half will discuss the concept of globalization. The Sociology of Globalization Globalization may appear a macro phenomenon and distant, not the same as micro issues that have more of an impact on daily life. Yet large-scale global processes of

Introduction: Concepts of Globalization

Globalization, or globalisation (Commonwealth English; see spelling differences), is the process of interaction and integration among people, companies, and governments worldwide.Globalization has accelerated since the 19th century due to advances in transportation and communication technology. This increase in global interactions has caused a growth in international trade and the exchange of ...

Globalization - Wikipedia

Globalization can be understood as a period running from approximately 1970 to the present and which follows the era of the Cold War (1945-1989), which in turn followed what has often been dubbed the Age of Extremes (1870-1945).

How to Understand the Concept of Globalization - wikiHow

Romanian Statistical Review | THE JOURNAL OF NATIONAL ...

Romanian Statistical Review | THE JOURNAL OF NATIONAL ...

Glocalization is a term used to describe a product or service that is developed and distributed globally but also adjusted to accommodate consumers and users in their local contexts.

Glocalization Definition

The following are the widely used definitions of globalization: • "Globalization is a free movement of goods, services, people, capital, and information across national boundaries." • "Globalization is a process by which an activity or undertaking becomes worldwide in scope.

Concept of Globalisation - PHDessay.com

However, many leading scholars of globalization have argued that the major causes or shapers of globalization, particularly the movement and mixing of elements beyond a local or national level, is at least many centuries old; others frame globalization as representing processes inherent to the human experience, within a 5,000–10,000-year time frame. 1 Conceptualizations of globalization have typically highlighted cultural, political-economic, and/or technological aspects of these processes ...
